Karan Patel

+91 6351023729 | karanpatel6898@gmail.com | LinkedIn | GitHub | LeetCode | CodeChef

Education

Charotar University of Science and Technology — Gujarat, India
Bachelor of Technology, Computer Engineering, CGPA: 9.26/10 — *Aug. 2022 – May 2026*

Experience

Web Development Intern — June 2023 - July 2023
Cypersoft — *Remote*

- Developed responsive web applications using HTML, CSS, and JavaScript
- Implemented mobile-first design principles ensuring cross-browser compatibility
- Earned certification in web development after successfully completing assigned projects

Web Development Intern — June 2023 - July 2023
Appifly Infotech — *Remote*

- Developed responsive web applications using HTML, CSS, and JavaScript,Node.js,MongoDB
- Implemented Complain management system.

Projects

Foodie | *ASP.NET, C#, SQL, HTML, CSS, JavaScript* — 2023

- Developed an online food ordering system with user authentication and order management features
- Designed and implemented SQL database with normalized tables for restaurant, menu, and order data
- Created admin dashboard for restaurant owners to manage menus and track orders in real-time
- Integrated customer feedback system with analytics to improve service quality

Medagrama | *PHP, HTML5, CSS3, JavaScript* — 2024

- Designed a secure medical record management system with encrypted data storage
- Implemented role-based access control system for doctors, patients, and administrative staff
- Created intuitive dashboards for medical history visualization and appointment scheduling
- Built responsive front-end interface using modern CSS frameworks for seamless mobile experience

Infinity | *HTML, CSS, JavaScript, PHP, MySQL* — 2024

- Developed a full-featured e-commerce platform with product catalog, shopping cart, and checkout
- Designed database schema with optimized queries for efficient product filtering and search
- Implemented secure user authentication system with password hashing and session management
- Created responsive layouts ensuring optimal user experience across desktop and mobile devices

Complain management System | *HTML, CSS, JavaScript, MongoDB, Node.js* — 2025

- Developed a user friendly complain management system
- User can add complain of different category and keep track of complain.
- Implemented secure user authentication system with password hashing and session management
- Admin can reply to complain and give solution to solve the complain search complains

Technical Skills

Programming Languages: C, C++, Java, SQL, JavaScript, .Net
Web Development: PHP, ASP.NET, HTML, CSS, Node.js , MongoDb
Developer Tools: Git, GitHub, VS Code, Visual Studio
Database Systems: MySQL, DBMS, Database Design, Query Optimization
Software Development: Object-Oriented Programming, RESTful APIs

Certifications

- **Clear Gate 2025 in first attempt-**View Result
- **NPTEL Certification in Data Structures and Algorithms with Java-**View Certificate
- **NPTEL Certification in Database Management Systems (DBMS)-**View Certificate

- **Web Development Certification from Cypersoft-**View Cetrificate
- **AWS Cloud Developing-**View Certificate
- **Web Development Certification from Appifly Infotech-**View Cetrificate

Competitive Programming

- Solved 400+ algorithmic problems on LeetCode and codechef focusing on data structures and algorithms
- 50+ days badge leetcode
- 1116 codechef rating
- 1457 Leetcode rating
- Joined more than 15 programming contest
- Solved 100+ SQL question on codechef
